

8th Year Running

SDG INCLUSIVE

SUSTAINABLE TOWN PLANNING PROGRAM

It is vital for governments and communities to meet the challenges of land use needs such as infrastructure, housing, commercial and industrial development, transportation and recreational with attention to enhancing the quality of life, balancing urban needs with sustainable environmental usage.

It is thus essential for all stakeholders and decision makers to include the spirit of the United Nations SDGs into their planning process. This program aims to equip you with the tools, vision and insight to do so.

Few cities compare with Singapore as a live model of a Smart City SDG. A practical learning opportunity that can be used in YOUR city development..

“A very interesting and informative program to study.”

Yari Kabir, President of Nigerian Institute of Town Planning & UN-Habitat Program Manager

28 Jan – 1 Feb 2019
SINGAPORE
